25 March 2011

Dear Mr White,

Thank you for your recent enquiry.

I can confirm that TRL tested the Oakland Plastics RB22 water filled vehicle restraint system (VRS) to EN1317 parts 1 & 2:1998 on 21 October 08. The RB22 VRS fully satisfied the acceptance criteria of EN1317 at a N1 containment level. The report from this test has been reviewed and accepted by the HA and subsequently the RB22 VRS is approved for use on the HA Trunk Road Network.

If you need any further information, or clarification on any of the above points, please do not hesitate to contact me.

Yours sincerely

Gavin Foscett
